

Frequently Asked Questions

Will The Liberator work on my boat: Depends on certain dimensions, especially the side door location. We will need detailed dimensions of your pontoon boat.

What powers The Liberator: Uses your standard 12 volt battery, weak batteries will need to be replaced.

Is all weather: The Liberator is manufactured of marine grade everything, utilizing aluminum, plastic and stainless steel parts.

Warranty: 3 years normal and customary.

Color choices: We are using only Weathermax 80 for the top cover material and the colors they offer.

What if I want a new boat with a Liberator top: Please call Krupas Boat Mart (517-782-7146) or Thayer Marine (517-787-3000) They will be offering The Liberator on new pontoon boats.

Can I trailer with The Liberator top: Yes you can, however the rear corners need to be tied down with the provided straps.

Winter Storage: The Liberator is not designed to handle heavy wet snow loads. The cover canvas must be removed before shrink wrap is applied.
