

## Operating Instructions

1. Make sure nobody is near the rear cover/top when you begin raising or lowering it. There are many pinch points.
2. Remove the “Tie Down Straps” from the rear corners of The Liberator.
3. Raise the rear portion of the cover with the toggle switch to a comfortable height to unzip the front portion of the cover. As shown below.

4. Climb aboard your pontoon boat and unzip the front portion of the cover and store under a seat.
5. Separate the front cover support bows and store them.
6. Raise the rear cover/top to your desired height and take a ride.
